

FIRE BLANKET

PART CODE FB1

**1.1M X 1.1M FIRE BLANKET FOR
USE ON FAT AND OIL FIRES
IN THE KITCHEN.**

Overview & Key Features

A fire blanket should be present in all homes and is an essential fire safety product. Easily wall-mounted in kitchen, this 1.1m x 1.1m fire blanket is ideal to tackle fat-pan fires where it is not recommended to use a standard fire extinguisher due to the risk of spreading burning oil or fat. It can also be used to wrap around a person whose clothing has caught alight.

- Easy to use
- BAFE and BS EN-1869 approved
- 5-year cloth guarantee

A fire requires three different elements in order to continue burning – **oxygen, heat and fuel**. Removing any one of these three elements will result in the fire being extinguished. A fire blanket prevents oxygen in the air from reacting with the fire, which results in the flames being extinguished.

Technical Specifications

General

Model:	FB1
Dimensions:	202mm x 175mm x 45mm
Cloth Dimensions:	1.1m x 1.1m
Blanket Weight:	610g
UPC Barcode:	0-047871-266142
Case Quantity:	6
Case Dimensions:	225mm x 200mm x 325mm
Case Weight:	4kg
ITF Outer Code:	100-47871-266149
